

Colony Scout - Bug #1385

Scoutfly mounting holes to ground plane

09/01/2010 01:47 AM - Dan Shope

Status:	Fixed	Start date:	09/01/2010
Priority:	Normal	Due date:	
Assignee:	Kevin Woo	% Done:	0%
Category:	Scoutfly	Estimated time:	0.00 hour
Target version:	Development		

Description

from kwoo:

"Just swap out the part in the schematic and put them in the right place on the layout
you need to make the part correctly but you can make the hole plated and connected to the ground layer

then with any metal screw the chasis will be grounded so any shorts should be less disastrous and we get a free big ground plane"
