

Colony Scout - Task #1801

Call Freeman Supply about Color Mixing

10/09/2011 03:05 PM - Dan Shope

Status:	Fixed	Start date:	10/09/2011
Priority:	Normal	Due date:	10/10/2011
Assignee:	Dan Shope	% Done:	0%
Category:	Mechanical	Estimated time:	1.00 hour
Target version:			
Description			
Find out if it is safe (no degradation of shelf life/performance) to store Urethanes with premixed (liquid) colors. We want to premix large batches of coloring for consistency.

History

#1 - 10/10/2011 12:00 PM - Dan Shope

- Status changed from Assigned to Fixed

Called Tech Support this morning - No degradation of performance or shelf life (as long as using Freeman or Huntsman color tints).

Expected shelf life is 1 year (manufacturers warranty). Note that this is VERY stable compared to products from Smooth-On, Alumilite, etc.
